

9/14/43

My dear Miss Blaney,

Just a few days ago
I received your most
welcome letter of May 30.
It arrived rather late due
to the various changes
of address which have
taken place.

I left Camp Lee several
months ago & since then
have been to N. P. I -
Virginia Polytechnic Insti-
tute - and now am
stationed at Penn State
College as an engineer in
the A. S. T. Program. The
life has been rather

pleasant and the opportunities plentiful. Everything has been made rather easier by the continued attention to our welfare of this club & many others. Thanks to you & all those who have backed you up. Thanks also for the list of my buddies in the service. I appreciate it really.

Being back at school has brought back many of those pleasant memories at Bryant. Hope I can get back there soon to complete what I started. as ever,
Mario Rognier
